

# TigerPlay

TigerPlay was developed by TigerTurf to specifically meet the recreational needs of pre-school children. It is ideal for all childcare centres, community playgrounds and parks.

TigerTurf has created a softer, non-abrasive surface for safer playgrounds. More durable than natural grass, more inviting and interactive than other playground surfaces.

TigerPlay is available in a range of vibrant colours meaning you can create unique play areas, incorporating a range of activities and games – customised to complement your facility's vision.

// **HIC/Soft fall to 3 metres\***

// **Soft, durable all-weather surface**

// **Easy to Maintain**

// **Vibrant colour range**

## For the owners

- // \*TigerPlay has been tested to meet soft fall to **critical fall height regulations** up to 3 metres in conjunction with our soft fall pads. TigerTurf undergo regular independent testing to ensure its products continue to exceed Government safety standards.
- // TigerTurf TigerPlay is easily **laid over existing asphalt** or concrete bases or constructed on natural turf areas.
- // It requires **little sand infill** which significantly reduces the migration of sand indoors.
- // **Certified for indoor** installation if partially infilled with sand.
- // TigerPlay requires **very little maintenance** apart from keeping the surface free of debris and organic matter, helping keep maintenance costs down.
- // TigerPlay comes with a **7 year** limited manufacturer's warranty.

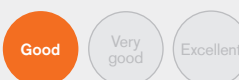

## For the players

- // The unique play areas created from the **vibrant range of colours** are more inviting and interactive than other playground surfaces.
- // The softer yarn provides a **softer 'landing'** reducing injuries and grazed knees associated with playground antics.
- // TigerTurf all-weather surfaces enable centres to accommodate a number of different activities which provide the opportunity for children to be more active, healthy and engaged in activity, enabling kids to **play – rain or shine**.

## Product attributes

Yarn	100% PE texturised monofilament (C80)
Pile weight	1041 g/sqm
Effective pile height	13mm
Sand infill	9mm
Warranty	7 years
Certifications	Fire tested/indoor compliant HIC/Soft fall to 3 metres
Fire rating	1.8kW/m <sup>2</sup>
